

On the Long weekend in June 2016 the Chatham Community went out to 'Take3 for the Sea'

This was to learn about how rubbish dropped anywhere could eventually end up in the sea and endanger marine animals and birds.

We asked everyone to collect 3 (or more) pieces of rubbish and put them into the bin.

Sue and Heath cleaned up the Beechworth Gorge

Alex gave Mont Albert a going over

Evan came to school and picked up more than 3

Sidd got 3 in his street

Amber took 3 in Queenscliff and Ashton took 3 in the Carlton Gardens

Zac walked the beach in Merricks and Hugo picked up 3 in Bright

Ian got in the gutter in Ashwood and Jack and Rory were both champions in Surrey Hills.

Liam and Grace made the Grampians look better as well as taking 3 for the sea.

Hamish and Ethan went to Rye Back Beach and Addie saved the rubbish before it went into the Beechworth Lake.

Katie was our furthestest collector picking up 3 for the sea in Central Park Lake New York.

Jack and Liam did a great job at Sorrento as did Julian and Zac at Rosebud – we are still talking about where the pilot came from – he is on display in the office if you'd like to see him.

We all took
3 for the Sea
